Subject: Contract AT(29-2)-20 - Plans of Action - Castle-Rodring  
Interim Period

Dear Sir:

Your letter PG-L-3596, dated October 13, 1953, requesting that two separate plans of action be formulated for the Castle roll-up has been received. In developing long-range plans of the type requested, it will no doubt be necessary to obtain from your office additional information concerning scheduling of work on permanent improvements as well as your desires concerning preparations for future tests which may be undertaken during a roll-up phase.

It is believed that preliminary planning for roll-up may be completed by November 20, 1953, to such a point that it would be possible to meet with you to review the plans and develop a final proposal covering the periods requested. If this schedule for submission of information does not satisfy your requirements, it is suggested that we discuss alternate methods of developing this information during your trip to this office next week.

Very truly yours,

HOLMES &amp; HARVER, INC.

D. C. Van Dine, Manager  
Construction-Operations Division
